

# Fast Track renewals

We understand you can't spend much time renewing policies under \$25k. We have established a Fast Track renewal process that keeps you informed but requires no touch on your part. Our goals include reducing paperwork and increasing speed, and Fast Track renewals accomplish both.

## The benefits of Fast Track

- 84.3% of accounts \$25K or less go through Fast Track renewal.
- You never have to touch the account and commission will remain the same at renewal.
- Affidavits are needed, only if required by state. Applications typically not needed.
- Even though you don't have to touch the account, you will still be copied on everything.
